

ECO Mesh – Extruded Plastic Netting

BSM-Bar Shelf Mesh Liner

The mesh shelf liner promotes air flow for faster drying and hygienic storage. It's ideal to use for your back bar, cabinets, drawers and storage areas.

The sturdy and durable Shelf Liner is specially designed for bar and kitchen glass drying areas. Features :

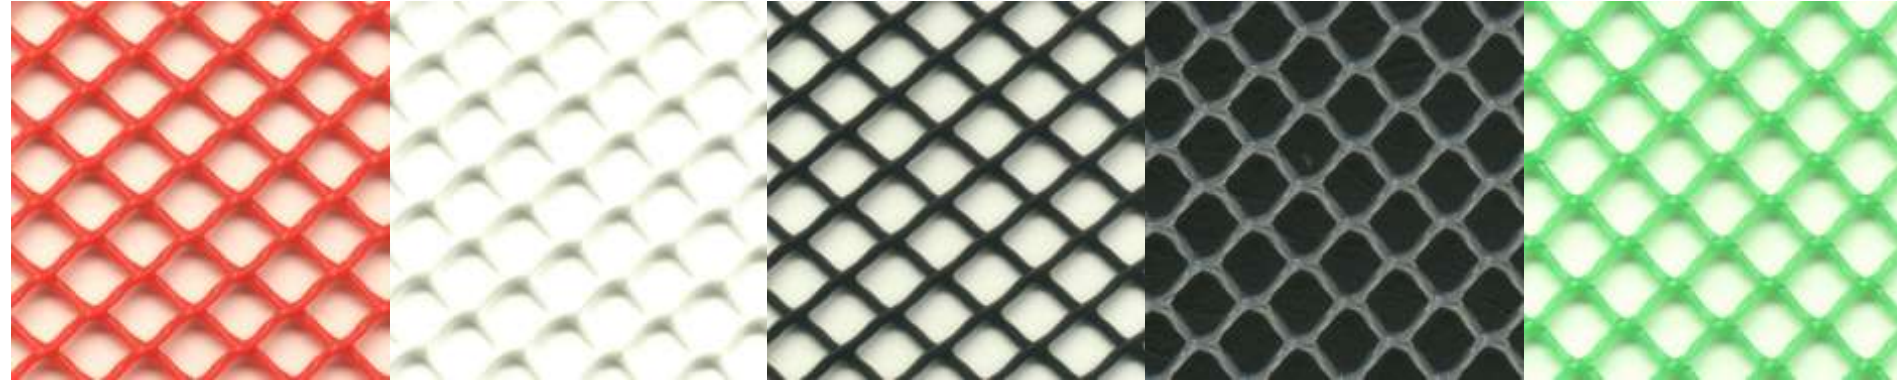

- **Minimize glassware chipping and breakage**
- **Improve hygiene by keeping tumblers away from bacteria breeding surfaces**
- **Speed glassware drying by eliminating condensate, promoting air flow**
- **Eliminate bacteria dangers of "bar towel" drying**
