Fine mesh and red color

Fine mesh (<0.5mm) pest protection bags (red) to keep fruit flies out.

PPBR-Pest Protection Bags (Red)

Description

- Insect-proof **fine mesh** bags (**Red**) to keep fruit flies out.
- Made of high-quality mesh with PE material.
- Protects vegetables and fruits from birds, moths, and insects while allowing air, moisture, and sunlight to pass through.
- Breathable design promotes smooth photosynthesis.
- Efficiently controls pests while remaining light and water-permeable.
- Provides a good growing environment without causing pollution or health damage from toxic pesticides.
- Ideal pest control method for those who prioritize sustainability and environmental friendliness.

ECO-MESH Extruded Plastic Netting Pest Protection Netting Bags (Red)

Patent : M639559

Do Insects Actually See Red ?

Scientists have conducted both observational and technical experiments to determine whether insects can see and perceive red light. Based on their findings, it has been concluded that **the majority of insects cannot see red.**

Pest Protection bags (Red) Features

Color: Red color may repel certain insects based on their visual sensitivity to the color.

Material: Made from durable and lightweight polyethylene that is resistant to tearing, rotting, and UV damage, making it perfect for outdoor use.

Mesh size: Has a small mesh size to prevent insects from passing through.

Length and diameter: Comes in different lengths and diameters for various applications, such as covering tree trunks, protecting fruits or vegetables, or covering small bushes or plants.

Breathability: Designed to allow air and moisture circulation, which is essential for plant growth.

Easy installation: Simple to install by sliding over the plant or tree trunk and securing in place with ties or clips.

Pest Protection Bags (Red) can effectively protect your plants and crops from insects, birds, squirrels and other pests. However, remember that color is just one factor in insect attraction, and other cues like scent or heat may be more important.
