

# EPN Extruded Package Netting

## Extruded Package Netting

Our Extruded Package Netting provide the attractive, durable and heavy duty packaging solutions. They can be heat sealed and become the flexible bags. The Package Netting has the varieties of the colors, widths and sizes to provide the flexibility for packaging to meet the market needs.

Our products can be used for the transportations and exporting of the fruit, vegetables and shellfish. Our well-experienced R & D department provide the customization to ensure the client' s satisfaction. The professional Quality Control department would assure the quality and productivity.

## Cons :

- More flexible than the traditional package netting.
- Ventilation.
- Better protection with the durable netting.

## Applications :

Packaging of produce.
