

Reinforcement Grass Grid – Specifications

Grass Grid

Marking box (white, red, yellow)

Grass Grid – Specifications

Reinforcement Grass Grid Material : High-density polyethylene (HDPE)

Reinforcement Grass Grid size : 500mm (length) * 500mm (width) * 50mm (height) ± 3%

Square tube diameter : 60mm * 60mm * 50mm (height) ± 3%

Weight: 4.0KG / M² or more

Compression square tube count: 128/ M²

Square tube wall thickness : 2.5mm ± 3%

Reinforcement Grass Grid Combination : Interlock

Grass Grid compression capability up to 150tons /square meter.

Marking box Size : 59mm*59mm*25mm

ECO-MESH
